

## Implementing real-time/technical applications using File handling

|                  |            |
|------------------|------------|
| Exp No : 9) a.   | Word Count |
| Date: 29.11.2024 |            |

### Aim :

To write a python program that counts the number of words in the text file.

### Program:

```
print("PRIYA DHARSHINI D","T24D144")
f=open("/content/sample_data/Content.txt")
count=len(f.read().split())
print("No. of words in the file:",count)
f.close()
```

### Output:

#### Text:

Content.txt X

```
1 The Purple Cow
2 By Gelett Burgess
3 I never saw a purple cow,
4 I never hope to see one,
5 But I can tell you, anyhow,
6 I'd rather see than be one!
```

```
➡ PRIYA DHARSHINI D T24D144
No. of words in the file: 30
```

|                         |                     |
|-------------------------|---------------------|
| <b>Exp No : 9) b.</b>   | <b>Longest word</b> |
| <b>Date: 29.11.2024</b> |                     |

**Aim:**

To write a python program that prints the longest word in the file.

**Program:**

```
print("PRIYA DHARSHINI D,T24D144")
f=open("/content/sample_data/python.txt")
l=f.read().split()
fl=[]
for i in l:
    fl.append(len(i))
maxno=max(fl)
ind=fl.index(maxno)
print("Longest word in the file:",l[ind])
f.close()
```

**Text:**

Each Life Converges to Some Centre  
Each life converges to some centre  
Expressed or still;  
Exists in every human nature  
A goal,

Admitted scarcely to itself, it may be,  
Too fair  
For credibility's temerity  
To dare.

Adored with caution, as a brittle heaven,  
To reach  
Were hopeless as the rainbow's raiment  
To touch,

Yet persevered toward, surer for the distance;  
How high  
Unto the saints' slow diligence  
The sky!

Ungained, it may be, by a life's low venture,  
But then,  
Eternity enables the endeavoring  
Again.  
- Emily Dickinson

**Output:**

PRIYA DHARSHINI D,T24D144

Longest word in the file: credibility's

|                  |                             |
|------------------|-----------------------------|
| Exp No : 9) c.   | Copy from one file to other |
| Date: 29.11.2024 |                             |

**Aim:**

To write a python program to copy the content from one file and write to the other file.

**Program:**

```
print("PRIYA DHARSHINI D","T24D144")
f=open("/content/sample_data/Content.txt")
f2=open("Copy.txt","w")
f2.write(f.read())
f.close()
f2.close()
```

**Output:**

Content.txt      Copy.txt ✕

```
1 The Purple Cow
2 By Gelett Burgess
3 I never saw a purple cow,
4 I never hope to see one,
5 But I can tell you, anyhow,
6 I'd rather see than be one!
```
